

GOTOGODS

GOTOGODS PROJECT is
the innovative platform that allows fans to book live meetings with
STARS. Our token is a payment tool in our ecosystem.

PROBLEM

ABSTRACT

The 6 Degrees of separation theory developed by the Hungarian writer Frigyes Karinthy in 1929, affirms that each person on Earth can be connected to one another through a chain of individual relationships that includes up to five other links.

Business CORE IS...

You want to be in contact with your favorite movie star, singer or acting performer to let them know how much you like their work? Or maybe you're looking for a shout out video?

GOTOGODS is a platform that allows you to have direct contact with the celebrity of your choice.

It is more evident that it signals the degree of separation between two individuals as well as the possible “paths” to link an individual to another through their respective relational networks.

Our goal is therefore to make the P2P with stars a concrete reality.

Who has never dreamt of talking to his/her idol just for a few moments? GOTOGODS was born from this dream: allowing every fan to communicate directly with influential.
